Full Stack Developer (React/Next.js/Python)

Developer with 3+ years of experience. Specializing in React/Next.js and Python backend development. Experience with LLM for problem-solving and development optimization. Creating high-performance web applications and bots.

Work Experience

Middle Full Stack Developer

Dec 2023 - Jan 2024
- Full-stack application development with React/Next.js and Python
- Telegram bot development with Python and server-less functions
- Firebase Auth integration with PWA through middleware
- Search implementation using Algolia
- LLM integration for code review and solution finding
- Genkit flows and serverless functions configuration

Junior React Developer

Dec 2022 - Mar 2023

Junior Frontend Developer

Jun 2022 - Oct 2022

Skills & Technologies

Frontend & AI Tools
React • Next.js
TypeScript • JavaScript
TailwindCSS • Sass
PWA • Algolia
LLM Integration • AI Assistants

Backend & Python
Python • Node.js
Telegram Bot API
Server-less Functions
Firebase • MongoDB
MySQL • REST API
Git • Genkit

Key Projects

- Telegram bots with Python and server-less architecture
- PWA with Firebase Auth and middleware
- Search solutions with Algolia
- LLM integration for code analysis and error detection
- Server applications with Node.js/Python
- REST API and third-party services integration

LLM Experience

- Using AI for code review and error detection
- Code optimization with LLM assistants
- Code generation and refactoring
- Finding solutions for complex technical challenges

Education & Certifications

- EPAM: React Developer (03/2023)
- EPAM: Frontend Developer (03/2022)
- EPAM: Node.js Developer (11/2022)
